n° 12207 *Sinapis arvensis* L.

Helsinki [Finland, Uusimaa (U/N)], Mellunmäki, by crossing of the roads Itäväylä and Niinisäärentie, UTM/MG 1, alt. 13 m, waste land, formerly a dump of Russian sunflower seed refuse, with which the species was introduced, September 16th, 1985.

Leg. et det. A. Kuritto n° 4640

Rem. : Part of the specimens have distinctly hairy siliques [var. *orientalis* (L.) Koch & Ziz], others glabrous (var. *arvensis*) or slightly hairy ones. Thus the gathering is a mixture of pure races and their intermediates.
